***** INTRODUCTION *****

The Solar Return is a chart calculated for the time that the Sun arrives at the exact position of the Sun in your natal chart. That happens once every year around your

birthday, but at a different time each year. This chart is calculated for the time of the Sun's return this year and marks the principal events for the year from birthday to birthday. This report also gives the location of your Solar Return. From this, it can be determined that some places are more favorable than others. With the aid of more than one report you could analyze the changes that are produced in the Solar Return Reports, choosing from different locations where you would want to spend the day.

This report essentially is divided into two parts. The first part analyzes the general external conditions of the year: opportunities and problems that could occur in different areas. For the benefit of students of astrology, the influence of the Ascendant and Midheaven of the return are described as well as that of the Sun and Moon.

The second part analyzes the twelve astrological houses, marking specifically in what area of your life the various astral influences will be manifested, emphasizing your probable responses and inner changes. This section analyzes the position of the solar houses on the natal houses, the planetary conjunctions, and the location of the planets in the houses. You will be given a description of the most important matters derived from the placement of the planets in the houses, which are outlined in the text for each of them.

In some cases you will find contradictions. A planet may be beneficial in a certain area, while others may indicate the opposite situation. This means that you could have two types of possible situations during the year. For example: a lover's quarrel and a following reconciliation. To get the most out of this report, it will be necessary to use your own logic and intuition, fitting the descriptions outlined here to your own particular case.

The objective of this report is to offer you a practical guide that helps you to analyze this year's prospects and to learn from them using your free will.

***** FIRST PART *****

Chapter 1:

General characteristics of the year. The external conditions.

Solar Return Ascendant Sagittarius :

This is a period of expansion, personal growth and general good luck. You will feel a desire to expand your sphere of interest beyond that with which you are familiar. Your idealism will also increase, and you will have a strong interest in the fields of religion, philosophy, law, metaphysics, and in advanced science. You will draw people to you who are positive and helpful.

Your desire for independence will be strong, along with a desire to travel and become acquainted with distant lands. If you have been thinking about taking a vacation, this is a good year to do it. You will carry out your plans with great enthusiasm. And this year you think big! Nothing less will do.

You may feel discontented and restless with your normal, daily routine. There will be a tendency to exaggerate, to be overly optimistic, and to be so preoccupied with the outcome that you ignore any potential dangers. You will have faith in yourself and your plans, but there is a risk of making mistakes that you will later regret if you do not plan well and pay attention to necessary details. Be positive but realistic!

If you are by nature quite serious and reserved, this year you will surprise everyone. You will become more talkative and spontaneous. If you are normally outspoken and friendly, these traits may be even more emphasized. But regardless of your basic

temperament, good humor will prevail and you will find ways to resolve any problems you may encounter.

You may be attracted to adventure and conquest. The new and unusual will appeal to you, especially if it involves a degree of risk or danger. You should be careful not to go overboard in your search for excitement. This spirit of adventure could bring you into contact with new people, cultures, and languages. You could be involved in a light-hearted romance that may or not last after the year is over.

Under the influence of Jupiter, there is a tendency to gain weight, particularly in the hips and thighs. Therefore, you should be more than usually careful about your diet. And, of course, getting a lot of exercise is desirable.

You are likely to meet some interesting people who will stimulate your intellect and expose you to new and exciting ideas. They also will encourage you to spread your wings and travel. This could be a social year for you where you can go places and do things you have never considered before. If you are single, you will have the opportunity to meet other unattached people. One of them could become important to you. However, the relationship will probably not turn out to be long-lasting. If you are in a committed relationship, you might feel a little restless with the restrictions that it places upon you. One solution is to bring the new friends you make home to meet your partner. This is certainly a year when you can explore and grow in mind and spirit.

Solar Return MC Libra:

It will be possible this year to find the balance you long for. You will work tenaciously and persistently to materialize your goals. Diplomacy and your gift for sociability will go a long way toward achieving success in whatever you do this year. Overhasty actions and decisions without forethought will interfere with your progress. It will be important to think before you leap and plan your work carefully and calmly.

There is a possibility for romantic problems to occupy your mind a lot, which may interfere with your professional life. Deal with this by keeping your personal and professional life separate and don't waste your energy on it. If you can achieve emotional balance, you will be stronger in everything you do, but don't rely on others in order to achieve your personal success.

This influence favors working in groups to accomplish your goals, finding a solution to any legal problems you may have, and reconciling any differences you still have with others. It is important that you overcome and heal any bitterness or hurts you may have experienced in the past which might be standing in the way of your progress.

If your work is related to the courts, public relations, diplomacy, or some artistic form, you will have a year of progress and professional satisfaction. As a matter of fact, regardless of the kind of work you are involved in, you will find more harmony and balance than before.

However, this influence could also generate strong tensions within your home. The

principal cause of the disagreements and arguments will come from others wanting to impose their authority on you. Fire also could be a threat now, especially if similar indications in this report indicate it. You should take the necessary precautions to insure your safety.

Chapter 2: Astrological influence of your personality.

Sun in 11th house:

This solar influence increases your social life, and your circle of friends should widen. These people will have a positive influence on you. Existing friendships will also be strengthened and will be a great support to you during this year.

You will feel a desire to join groups and participate in group activities with people who have the same interests. You will find yourself depending on friends to help you carry out your projects and plans. However, if there are other indications negating this, you will find that friends you counted on might not be there for you as you had hoped. Or you might find that the groups you have joined and are participating in are actually not positive influences but are wasting your time with useless activity.

You will develop new goals and objectives during this year. You will also be more idealistic. You will have increased understanding of those you work and play with. The first half of the year will be more a time for thinking and planning, while during the second half you will begin to activate and carry out your goals.

A special friend's offer of support and dedication may be instrumental in the achievement of your goals.

Sun conjunction Mars:

This is an excellent year to begin new projects, especially those that involve dynamic activity or some risk. You will feel full of vitality and vigor to confront life. You won't enjoy sitting down too much or spending time in one room for a prolonged period and will resist maintaining a daily routine. You will need to find an outlet for your increased dynamic energy. One possibility would be participating in some sport or some work that requires physical effort.

But this influence could also cause you to be more aggressive,, impulsive, and impatient. You will be prone to overreact to the smallest things. It would be wise to be more aware than usual to how you act in situations which trigger off your negative side. This behavior could effect your social relationships and bring about conflicts with people who don't agree with your way of thinking. Your confidence will be strong and you will defend your ideas with great vigor. Try to maintain a certain amount of flexibility. You will be inclined to express yourself most aggressively in the house that is occupied by the Sun this year (described in the previous paragraph).

There also is danger of accidents, falls, blows, burns and cuts. This is due to your inclination to take chances and to act hastily or impulsively.

Sun conjunction Pluto:

This astrological aspect will bring profound changes in your life. Hidden, repressed feelings and desires will come to the surface, causing a change in your personality. It is important that you accept these emotions and don't attempt to repress them again, because, if you do, you will only feel more anxious and tense. You will be more aggressive and impatient than at other times, and you will be working more from the subconscious level. This will be a year of transformation and profound changes for you and could bring you a wide range of new experiences.

Under this influence, you will also be inclined to worry about repairing and fixing the things that don't work in your life, both at home and at work. You also may be concerned with replacing or repairing those things that don't give good service anymore or things that have already served their useful purpose, for example, your car, home furnishings, or clothing.

You may experience tensions with people who attempt to control you or exercise authority in your life. You will be confronted with people of very strong character who think they know what is best for you but are not taking into consideration your needs or interests. Be careful not to react too aggressively in return.

The negative side of this influence is that it could bring unsavory elements or risky, violent situations into your life. It would be wise to avoid parts of your city where robberies and violence are common.

Sun quincunx Moon:

Minor problems and conflicts in your home could alter the peace during this year. There is a possibility that problems from the past that haven't been resolved yet will resurface. You can't expect much support from your family in carrying out your plans.

It also is possible that you will have moments of doubt and indecision. You will be less decisive and practical, and you will tend to be more influenced by your feelings and emotions.

Sun semisquare Venus:

You may encounter, and have to deal with, some unresolved romantic problems from the past. Stay calm and develop a positive attitude toward your partner, as well as your social life in general. The irritations and displeasures caused by others could be the reflection of your own inner uneasiness. This aspect generates a desire for comfort and pleasure, which could lead to disruptions in your routine, followed by a possible loss of income. Do your best to control these yearnings and search for a creative solution for your inner dissatisfaction.

Sun semisquare Uranus:

You will be very nervous and impatient during this year. You will get tired of your daily routine which could cause you to make quick and erroneous decisions. It is important that you moderate your impulses and act intelligently. You will require more freedom of action and you may become short and abrupt with people who

interfere. You should try to direct your energies consciously, because reacting explosively will only complicate matters.

You also could be prone to accidents involving speed or electricity. Drive carefully. It will be very difficult to remain calm and tranquil during this year.

Sun semisquare MC:

You will feel some dissatisfaction with your job and start looking for something else. You could experience opposition from others or problems that keep you from realizing your principal goals during this year. Direct your energies appropriately so that you don't drive yourself to physical exhaustion. Don't expect much approval from others now and don't just assume that everything will go the way you want it to.

It is important be realistic, practical, and persevering in order to achieve your goals. You should not try to go it alone or to be too inflexible. If you succeed in coordinating your efforts with others, you will have success this year.

Chapter 3: The emotional world.

Solar Return Moon in Aries :

Your emotions will be intense and strong. You will show great enthusiasm and vitality and a considerable increase of your own self-esteem. On the other hand, you could also become more anxious and impatient than usual and express your feelings too strongly which could offend some people. Try to be more considerate and harmonious or you could have problems with the public in general.

Under this influence, you will be acting with a certain lack of finesse, which could at times cause problems with others, especially women. The relationship with your mother, or with other women in the family, could become complicated with arguments and disagreements. You will be too frank and direct in your speech, which could easily hurt other people's feelings. On the positive side, this influence could cause you to be more protective in defending your loved ones. If you could manage to be a little more sensitive during this year, you could accomplish a great deal more. Either way, you will be acting from your emotions and feelings.

You also will have an inner desire for adventure, challenge or risk taking. You will have more courage and won't be afraid to face adversities. However, it's important not to go to extremes. Use caution and don't expose yourself to danger. Use this positive energy for your own progress and personal growth.

Any physical activity will be good for the discharge of negative emotions. Think before you act and don't let impatience and aggressive feelings dominate you.

Solar Return Moon in 4th house:

You could have a change of residence during this year, or you may undertake some other changes or improvements in your present home. Your attention will be on matters around your home. This may involve your mother or other women close to

you. You could become overly dependent upon someone in your inner circle and find it difficult to cut the ties that bind you. Although you could very well receive support for and approval of your ideas, it is also possible that you will encounter unwelcome demands or limitations on your own freedom.

The changes you make will be emotionally motivated and will not necessarily be logical or understandable. The majority of the changes will probably occur in the final months of this solar year.

Moon square Saturn:

You could feel very lonely and depressed at times under this astrological cycle. Your social life will not be as active, and you may wish to be alone more often than usual. You might have the feeling that nobody loves you or cares about you. You may have negative thoughts and tend to see your problems and your life in general as being much darker than they really are. You should try to suppress this kind of thinking and maintain as much objectivity as possible.

You could find yourself recalling former painful romantic situations from the past which have resulted in misunderstanding or separation. You could be unduly dwelling on perceived failures in love relationships which will need to be dealt with. It will be very difficult for you to relate emotionally to anyone during this time because you will tend to become cold, distant, and detached due to some injury you received that you have not forgotten. It is possible that a past relationship is not quite finished and needs to be resolved. This astrological aspect forces you to confront old, emotional karmic debts. It is important that you remain positive and objective in handling these negative emotions.

You also may have problems in your home life, especially with older people or those who exercise a certain authority in your life. This is not a good year to change your residence or to invest in real property.

It is advisable to watch your health, especially your digestive system. In a woman, this influence brings delays in the menstrual cycle and general problems with vitality.

Moon trine Asc:

Your social life and the contact with others will be very favorable during this year. You will search for profound and intimate relationships, and you will be willing to help and protect the people you love. You also will become very sensitive and perceptive, which makes it easier to relate to the needs of others. Your understanding will be deep and intuitive.

You will receive the benefit and the protection of certain friendships with women, and any contact with the public in general will be very profitable. You will have charisma and will project an agreeable, warm, and caring persona.

You will also feel the need to belong to some group and will search for contact with people who have the same interests as you. They won't be difficult to find!

Moon sesquiquadrate Jupiter:

You will lean toward extravagance, excesses of all types, laziness, and ostentation. It is important not to neglect any legal responsibilities that you have and to take care not to acquire any unnecessary debts or other obligations. Your carefree attitude could cause you to become more irresponsible and careless than usual.

The lack of care could also apply to your nutrition. There is a tendency to eat excessively or at irregular times, which could affect your digestive system, especially the liver.

******* SECOND PART *******

ANALYSIS OF THE 12 ASTROLOGICAL HOUSES. INNER RESPONSES.

HOUSE 1: Personality. Principal interest of the year.

Asc on 1st natal house:

You will feel confident and on solid ground in making your decisions. You will use your free will, and you will be very much aware of opportunities that come along. It will be a year of adjustment to your true and basic interests. You will be interested in developing your whole personality, including your physical body and the characteristics of your temperament. This influence reaffirms the power of your ego and increases your self-respect and vanity. The degree of your success will depend entirely on your own effort and initiative.

Uranus in 1st house of Solar Return:

You will need more freedom and independence during this year. You may be acting differently and strangely, which will surprise and confuse the people who know you. You will be more tense and keyed up and will resent too much routine or obligation or any limitation to your freedom. Don't expect to receive too much understanding from others because they will not know how to respond to the new you.

You should be more careful than usual because this influence will make you more unpredictable and risk taking, thereby becoming more prone to accidents or speaking out too bluntly. You won't be as interested in or willing to listen to the opinions of others. You will feel the need to make changes in your life, becoming more open and willing to reach out more. You will be attracted to everything new, strange, or unknown, and to risky situations.

Your health could be affected due to the great degree of stress that you may suffer during this year. You must try to get enough rest and practice some relaxation exercises.

Neptune in 1st house of Solar Return:

Your perceptive ability and your sensitivity will increase notably during this year.

You will be more imaginative and will tend to idealize the people around you. This could lead to future problems if you were too unrealistic and trusting of these people. You will be more romantic and dreamy and not entirely in contact with the real world. If you have artistic inclinations, especially in music, you will have a very favorable year.

On the negative side, this position could cause you to be confused and easily deceived. You will have a tendency to want to escape or run away from your problems instead of facing them and taking appropriate action. This will be due to fears and inner insecurities which will come to the surface. You could also be the victim of gossip, envy, or criticism, and become entangled in unpleasant chaotic situations.

Try to be as realistic and aware as possible, and use your heightened imagination in a creative way which will enrich your life.

HOUSE 2: Financial situation.

Solar Return 2nd house on 2nd natal house:

This year's possibilities will force you to earn money through your own efforts. You should rely on your ideas and hunches about where and how to invest money. This will be a period of financial success, unless there are other astrological aspects to the contrary.

Solar Return 2nd cusp Conjunct natal Saturn:

You will become more responsible and organized in your handling of your finances. You will be very careful with your money and will probably begin to save for the future, even if it means depriving yourself of some luxuries or pleasures. Take care not to become too obsessive about money or allow yourself to become unnecessarily fearful or insecure in reference to your financial situation. And if you actually do have some serious financial problems, you will probably think that they are more complicated than they really are. You should try not to think negative, pessimistic or depressing thoughts about this.

Saturn in 2nd house of Solar Return:

You should be very careful with your investments and business expenses during this year. You could experience loss of some sort, delays in collecting money owed you or difficulties in carrying out financial projects. However, you can probably count on having a regular income but it could be much less than you expected. It will be a year of limitations and financial insecurity during which you will learn the importance of saving and planning ahead. These experiences will give you more courage and confidence to handle any problems that arise. The more organized you are, the more you will accomplish. This will not be a good year for new real estate investments.

The experiences that you will have during this year will prepare you for improving

your business in the future.

Solar Return Saturn Conjunct natal Saturn:

You will feel the desire to put your life in order and you will rely on the aid of certain people in order to do so. You probably will be surrounded by older or mature people with whom you will share your interests. The duties and responsibilities of your daily life will help you to grow and to become a more realistic person. You will become aware of your own limitations and will patiently work toward overcoming them. You will feel like you are beginning a new stage in your life that will require you to be more mature, sensible, and serious.

HOUSE 3: The conscious mind. Study, communication, and short trips.

You also may take a number of short trips during this time. Your relationship with the immediate environment will be favorable.

You will have a greater desire to expand your knowledge and to reach a higher level of consciousness. You could also develop a greater sense of humor and a more positive outlook on life. You won't be so concerned with your everyday problems but will have a more optimistic attitude toward them.

You will show great concern for your home and your family. You will look for ways to achieve the stability you always yearned for and will make the necessary investments. If you are already in a relationship, you will enjoy and appreciate each other's affections. It is important that you express your feelings during this time and that you receive the level of happiness you are looking for. It also will be a good year for amusements such as games and sports. Unless there are contrary indications elsewhere in this report, your relationship with children will be especially positive.

HOUSE 6: Health and illness. Employment. Service.

Solar Return 6th house on 6th natal house:

HOUSE 7: Associations. Marriage and partnerships.

Solar Return 7th house on 7th natal house:

Your relationships with a spouse, partner, or business associate will be especially important this year. Depending on the quality of your relationship at this time, a positive union could continue to be positive and rewarding. On the other hand, any relationship which is not a solid one could weaken even more.

HOUSE 8: Life and death issues, inheritances, and mysteries.

Solar Return 8th house on 8th natal house:

This influence suggests that you take care this year to prevent exposure to some sort of danger or an accident. If you are careful, you will be all right. However, if you are somewhat accident-prone, you should be more cautious and prudent during this year.

HOUSE 9: Religion and spirituality. Long-distance travel.

Solar Return 9th house on 9th natal house:

If you had planned to travel to a foreign country, this will be a good year to do it. You will feel very good about your basic religious faith and your philosophical ideas this year.

Solar Return 9th cusp Conjunct natal Moon:

You can rely on your religious faith and spiritual beliefs to help you understand many of your emotional and family problems. It is important for you to go within and get in touch with your own deep ideas. You may get interested in learning about your own roots, especially if they are connected to other cultures or countries. You could also develop a desire to teach and transmit your knowledge to others.

Solar Return 9th cusp Conjunct natal Uranus:

You may find yourself questioning your religious and spiritual beliefs and desiring to free yourself from existing commitments and traditional formalities. Your desire to learn more about new ideas and concepts that can raise your consciousness will increase, and you may discard some of your old beliefs. You will probably feel restless and may want to plan a trip to far-off, exotic places. You should use caution in making your decisions and not act too impulsively.

Solar Return 9th cusp Conjunct natal Pluto:

You could change some of your religious and philosophical ideas during this year due to new inner revelation and inspiration. This year could be a spiritual turning point for you. You will desire to search for new ideas and experiences, letting go of old attachments or limitations. You will become attracted to mystical or psychic experiences. If you travel to a foreign country during this time, the experiences you will have during your travels will deeply change your life.

Venus in 9th house of Solar Return:

This is a good year to take a trip to a foreign country. You will have a good time and will establish new relationships with people from other cultures. You will be attracted to unusual or different people with whom you have not previously had any contact and who represent a culture or a different way of thinking than you are used to.

You could make this trip with a loved one, or you may meet someone during your travels. In either case, your consciousness will expand through this experience. You will learn new things from this other person that will open you up and expand your thinking. You could benefit especially from some involvement in the arts and things of beauty.

You will be at peace spiritually and will feel harmony within that will bring you great satisfaction.

Jupiter in 9th house of Solar Return:

During this year, travel to foreign countries will be very good. If you have been thinking about doing some kind of traveling, this would be a good year for it. Your interest in learning about distant lands and cultures will increase.

The desire to increase your knowledge will lead you to study and to connect with other people from whom you can gain the information you are looking for. Your consciousness will expand and you will also be curious about exploring such fields as philosophy and religion. You will find it easy to concentrate and to comprehend the answers to abstract questions. You will be able to put your old prejudices aside and explore your own spirituality more deeply and honestly.

This year will also be very good for activities related to politics and the law.

Solar Return Jupiter Conjunct natal Uranus:

The excitement and optimism of others will bring out your more rebellious, unusual side. You will be able to express the true you more freely and will make your original ideas known in conversations with others. Other people will enjoy being with you because you will be an interesting and amusing companion when you are with other positive, fun loving people.

Solar Return Jupiter Conjunct natal Pluto:

The optimism, protection, and happiness you will receive from others will help you to produce profound changes in your life. You will be freed from inner pressures or fears that have held you back in the past, and you will feel more certain about yourself and your power. Spiritual, wise people will be most influential in guiding you through this process.

HOUSE 10: Your profession, success, and status.

Solar Return MC on 10th natal house:

This year will bring opportunities for professional advancement. You will feel more confident and safe about demonstrating your own abilities. It will be a year of social growth, as well as status. There is the possibility of receiving a prize or recognition for your efforts and level of ability.

HOUSE 11: Friendships and social life.

Solar Return 11th house on 11th natal house:

Your friendship ties will be even closer with those people you now consider to be your friends. You also might reunite with friends you haven't seen in a long time, or you may rejoin a group or club to which you have belonged before. Unless there are other adverse indications, you will be able to rely on the same support you have always had from your friendships.

Solar Return 11th cusp Conjunct natal Venus:

You will thoroughly enjoy your friends' company. Your desire to meet new people and to socialize will be increased, which will lead you to join groups and to begin new relationships. You could be interested in meeting people who are artistically inclined or those with other creative inclinations. There also is a possibility of a powerful attraction to one of your friends that could lead to the beginning of a romance.

Solar Return 11th cusp Conjunct natal Neptune:

You might be inclined to be too idealistic when looking at your friends and may suffer the consequences of being deceived by some of them. Your imagination and unrealistic manner of thinking will affect your ability to be objective when dealing with them which will lead to your having false expectations about some of them. You could develop a spiritual bond or the ability to communicate telepathically with your close friends and will be able to tune in to them at a distance and know just what they are experiencing. On the other hand, you will make many plans and goals for your future, but they may not be very practical or unattainable.

Mars in 11th house of Solar Return:

You could have confrontations or arguments with your friends because of your selfish or aggressive attitude. Be careful not to lose your patience so easily and don't try to force your ideas on others. You will feel better sharing some physical activity or sports with your friends rather than listening to and agreeing with their opinions. If you participate in some group activity, you could probably encounter situations of tension and disagreement. You could be the responsible party or you could be the receiver of the attack by other members of the group.

You will feel a current of hope and energy and will know exactly what you want to do with your life. You will act with stability and your confident attitude will convince others. As a consequence, you could become the leader of the group.

Solar Return Mars Conjunct natal Sun:

You will react very strongly to any acts of aggression on the part of others. You will find yourself getting involved in tense situations, especially when you are confronted with very aggressive, domineering, or competitive people. However, your personal pride will be very strong and you will be able to take care of yourself when you are attacked or criticized by others.

Solar Return Mars Conjunct natal Mercury:

Disputes and arguments with other people will make it very difficult for you to concentrate and think straight. You will respond in a very nervous manner when confronted by this kind of behavior. On the other hand, you could be mentally stimulated by these encounters, causing you to work faster and to think sharper and more quickly.

Pluto in 11th house of Solar Return:

Your social life will be transformed this year. You probably won't associate with the same friends you have always had and will make new friendships.
